

# MAY DAY, 1997

SR/CL: **LEITMOTIV**: "Theory attracts practice as the magnet attracts iron." — Gauss

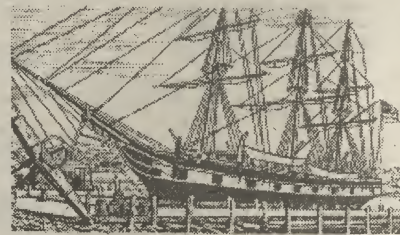

וְהַשְׂאֵרָתִי בְּיִשְׂרָאֵל שְׁבַעַת אֲלָפִים כָּל-הַבְּרָכִים אֲשֶׁר לֹא-כָרְעוּ לַפֶּעַל וְכָל-הַפֶּה אֲשֶׁר לֹא-נָשַׁק לוֹ:

Neither the Pigs nor the Hirelings fear what they cannot see, thus the **Summer Tour** itinerary has been generated where normal inquiry would expect nothing; the bulk of the **Revisionists** will not detect the electromagnetic transfer because they will never read *Nucl. Phys. B433* @ 234 (R. Urech, 1995); only the **Pelagian** Revisionists could suspect that the **vacuum alignment condition** is the treatment of choice for forcing the direction of symmetry-breaking. Because the **Pelagians** are the one malignant neoplasm which may intercept the initial transmissions, **Alberich** has requested that **The Orphanage** reserve use of the symmetry generators until **The Midget Tag Team** has finished seeing the *aigues mortes*. In light of the foregoing, the 467th Anniversary of the *Confessio Augustana* will be celebrated in **The Vault** of the Hotel California. **Capt. Morgan**, **Martin Chemnitz** and **Mistah Kurtz** are scheduled to dock the *Arbella* within a fortnight of 6/25/97 with the Brasher Doubloon to be safely sealed within a loaf of **Wonder Bread**. The route through the (hotel) corridors is to be projected by, *mutatis mutandis*, programming the optical scanner with the melody of "True Companion" *sub specie* the (polar hyperbolic) coordinates of 5/1/95. **Morphy & Alekhine** will virtual the Feast via the **Annual Dividend** from the **Breitenfeld Battle Bond** (Series 1969), while **Winthrop** will conduct a joint performance by **The Asylum Choir** and **The Loyal Order of Un-reconstructed Freaks** in a digitalized demonstration of **THE ERADICATION OF ONTOLOGICAL ONCOLOGY**.
